

Please Click <https://canvas.ust.hk> and **SFQ** on the left panel To Fill out End-of-Term Course Survey.

Thanks for your attention!

Final Exam Arrangements

Time and Venue

***Thu, Dec. 16, from 4:30pm to 7:30pm
in LG5 Multi-function Room***

Online Proctoring **ONLY** for NIHK students
Zoom meeting link will be available on Canvas

Release and Submission (only for NIHK students)

The exam paper will be sent to you by email

You need to prepare answer papers by yourself.

*You must send your **scanned** papers to our TA
Zhongyuan LYU **by email before 7:40pm.**
zlyuab@connect.ust.hk*

Cheat Sheet

*You can bring **Two** A4 sized, two-sided, cheat sheet to the exam. You can write, draw, print, copy anything on the cheat sheet.*

Distribution Table

We will provide the scratch papers, the Z distribution table, F table, Chi-squared table and the T distribution table. Please do not bring any other papers (except the cheat sheet) to the exam venue.

Since the Z distribution is symmetric, only one page of the Z distribution table will be provided.

Final Exam Arrangements

Topics Coverage

Chapter 1 - Chapter 9

70% questions will be focused on Chapter 5,6,7,8,9 but remember all these chapters depend on Chapter 2,3,4

Calculator

Please do remember to bring a calculator, otherwise, you will regret it... Any calculator, as long as it has no access to the internet and can not communicate with others, is allowed.

You are NOT allowed to use R in Exam.

Exam Questions

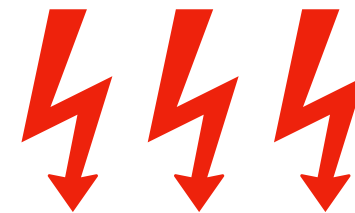

In total, there will be 8 questions. Each question may have several parts. All of these questions are focused on Calculations. Around 10% points will be related to R programming

Priorities of Learning Materials

1st priority: Lecture slides and examples in them

2nd priority: Assignment questions

3rd priority: Questions in practice exercises

Cheating is a serious offence.

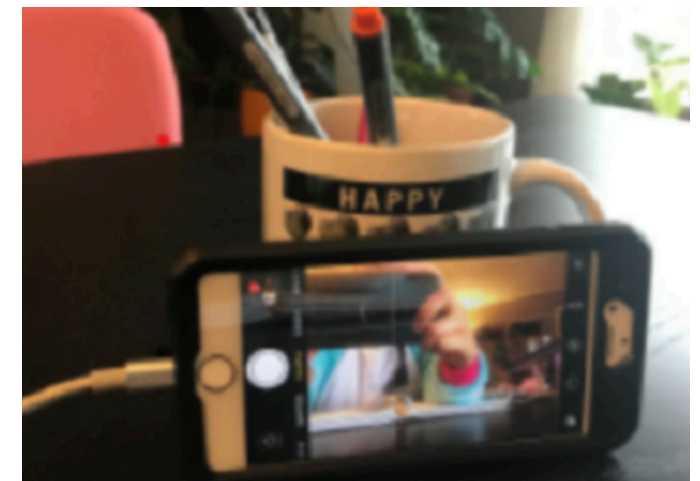

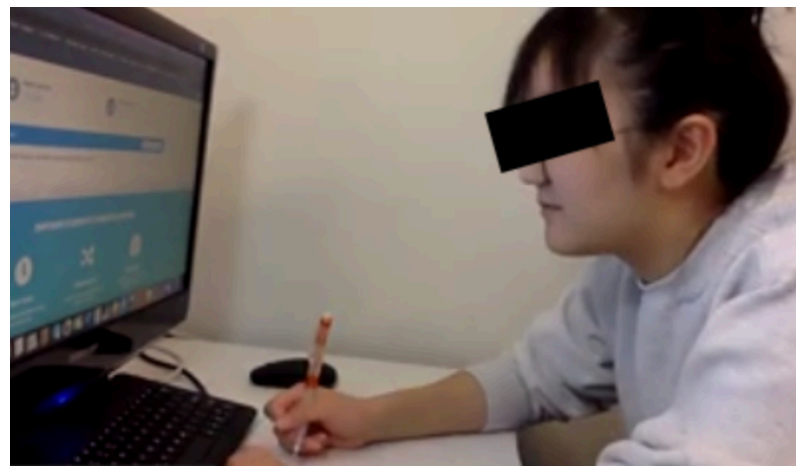

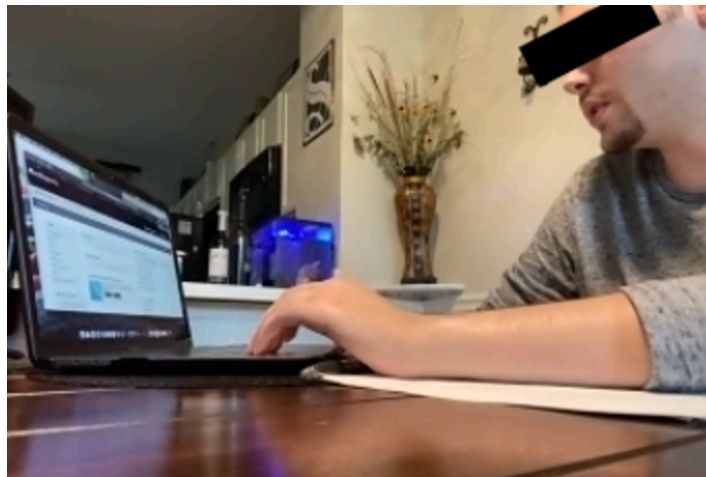

Offenders are subject to 0 scores and additional penalty.

Instructions

1. Remember to write your **name and student ID on EACH** answering paper to avoiding confusion with other students' papers.
2. You must show **detailed steps** for your answers. The marks you get will ***mostly*** be based on your solution steps rather than just the final answer.

Instructions of Zoom Proctoring (for NIHK students)

1. When you join the zoom meeting, your zoom account **MUST** correctly shows your **official name**.
2. Through the examination time, you **MUST stay** in the zoom meeting. The camera must be **ON**, and clearly shows the **screen** (you are suggested to use a computer to read the exam questions) and **table**. The best angles are similar as follows.

3. Zoom platform will **RECORD** all the videos and voices.

If you use your phone to read the exam questions
